**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-43 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record discloses method for implementing remote independent culinary preparation service that distribute electronic recipe over the web and user can obtain access to the recipes after user registers and pays for the service. The prior arts or record individually or in combination does not explicitly disclose a food retailer intends to pre-package encrypted ingredients; the encrypted selection of ingredients are decryptable at a food retailer that intends to pre-package said encrypted selection of ingredient; and said particular electronic recipe is distributed to the user where the encrypted selections of ingredients are not accessible to the user in light of other features disclosed in independent claims 1, 10, 19, 28, 33, 38, 40, and 42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Drawings***

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings contain informalities and exceeds the page margin to publication. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action

Art Unit: 2431

to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

#### ***Response to Arguments***

4. Applicant's arguments, see Appeal Brief, filed 11/30/04, with respect to independent claims have been fully considered and are persuasive. The rejections of claims 1-43 have been withdrawn. The Ichikawa reference discloses providing security in data communication systems. However, it does not disclose having an authorized food retailer that intends to pre-package encrypted ingredients and the ingredients are not accessible to the user. Therefore, the previous rejections have been withdrawn.
